

Explore what's possible with Microsoft 365 Copilot

ENGAGE SQUARED 

Copilot Vision & Value Workshop overview

The shift to AI-powered ways of working is well and truly underway. Start preparing your business and reimagine how work gets done with Microsoft 365 Copilot.

The most recent Work Trend Index report is clear – increasing digital debt is costing us innovation. The constant inflow of data, emails, meetings, and notifications has outpaced humans' ability to process it all (WTI, 2023). To remain competitive, it's critical that businesses transform their digital workplace from one where employees must do the hard work and go to the information > to an experience where technology does the hard work for you. Information comes to you through better integration, personalisation, and intelligence.

The Copilot Vision & Value is a three-phase engagement designed to help customers understand the value of AI reinvention, identify top functional scenarios, build a business case and develop a strategic implementation roadmap for AI transformation powered by Microsoft Copilot.

Excited by the possibility of Copilot but not sure where to start? This workshop is for you.
